The Radio Amateur's

ELEMENT 3(A)

Technician Class Test Manual

Contains all questions & answers in the Technician Class VEC Question Pool

Updated for the new Codeless Technician rules

All accredited Volunteer Examiners (VE's) and Volunteer Examiner Coordinator (VEC) organizations are required to use these Technician Class questions verbatim in preparing their Element 3(A) examinations. These test questions were released into the public domain by the VEC organizations' Question Pool Committee on July 1, 1990. The purpose of this test manual is to alert the public to the content of the Element 3(A) question pool. It is not a study guide since no explanations of the answers are included.
